14-Sep-22	10:00 – 11:00	<p><b>Split – Slash – Success!</b> This is a topic which comes up in discussion in every Remote DAFNE educator / doctor training workshop and is for any DAFNE educator and DAFNE doctor who may have reservations about recommending split basal insulin at starting doses of 12 - 16 units twice a day.</p> <p>The webinar will explore the DAFNE insulin regimen, specifically the recommendation for split basal insulin and slashed doses. It will look at the rationale for the DAFNE insulin regimen, its practical implementation and it will also showcase participants' experiences.</p>	Yes	Yes	Yes
07-Dec-22	14:00 – 15:00	<p><b>Challenging diaries</b> Trainee DAFNE educators frequently voice their concerns over the DAFNE Diary discussion sessions. This webinar is for any DAFNE educator or DAFNE doctor who would like to increase their confidence in the DAFNE diary review sessions and insulin dose adjustment.</p> <p>We will explore scenarios and ways to facilitate the discussion and it will be an interactive webinar using 'Slido' so please have your mobile phones available so you can join in with the session.</p>	Yes	Yes	No
18-Jan-23	14:00 – 15:30	<p>This webinar will cover the key areas of DAFNE that require administration input, whether this be carried out by the educator or the administrator. There will be a range of demos covering the central resources area, database entry, participant packs, resource orders etc. After each demo there will be time for any Q&amp;As relating to each topic, then a Q&amp;A session at the end to answer any admin related queries that services may have. In addition, there will be a section relating to the 2023 relaunch of DAFNE audits and revalidation.</p>	Yes	Yes	Yes

*Please note the above dates and topics are subject to change, however we will avoid this wherever possible.*
